Interpretation: ~~sub-circular~~

This is probably a ^{sub-circular} ~~sub~~ pit, there was a bottle in the top (around 18th century probably).

lots of roots all around the pit, big perturbation mostly in the top of the pit and some trace of bricks.

- small find 708 - Glass bottle, possibly for spirits recovered
- Small sherd of Iron Age pottery - possibly residual but could possibly mean that a later pit ~~was~~ cut through an Iron Age ~~feature~~ ^{this is}.
